

INFANT CUBA TO GROAN UNDER DEBTS

HEAVY LOANS AND HIGH TAX RATES WILL BE THE CAUSE OF THE REVOLUTION THAT IS BREWING—THE SO-CALLED "ARMY OF LIBERATION" MUST BE PAID—A BONDED DEBT OF ONE HUNDRED MILLIONS ON THE SHOULDERS OF 800,000 PEOPLE.

Havana, Sept. 14.—Is revolution imminent in Cuba with the next election for the presidency? It seems to be, if the present unrest, only a few inkings of which have reached the United States, are to be considered seriously. The friction between the administration and the anti-administration parties seems very near a violent climax.

Cuba's former "liberating army," which was wandering about under arms when the Americans drove out the Spaniards, is the cause of the trouble. This army, whatever its real numbers may have been, is regarded as the balance of power. Both sides want to have its support. It is charged to favor these soldiers, the administration is saddling the island with a bonded debt that will mean the absolute ruin of Cuba.

Appropriating Heavily.
So far the appropriation of \$35,000,000 by the preceding congress has been nearly all paid out to the former Cuban insurgents. It is claimed by those attacking the administration, that most of it has gone to speculators and usurers. Now the present congress comes promptly to the fore with authority to add another loan to the public debt to pay off an unpaid half of this so-called "posthumous and altogether apocryphal debt." Not only the present generation, but the next, it is contended, will groan under the burden.

Paying That Army.
There were perhaps 50,000 men in this army of liberation, a claim that is disputed. Anyhow, that number of claimants is provided for in the es-

imates. President Palma is credited with at first not favoring the payment of the army at this early stage of the life of the infant republic, in view of the absence of school facilities for half of the about 500,000 children of school age in the republic, and the absence of organization of many of the provincial and municipal governments.

The \$35,000,000 loan and the "impuesto," or tax levy, ordered to meet it, is alleged, however, to have been made to secure the support of the late army veterans on the side of the government in the approaching elections. The burden of the tax, it is said, is intended to be placed on the rich Spaniards, who escaped with undepleted purses in the transfer of the government.

Palma Confident.
The "Moderado party," headed by President Palma, is very confident of holding the soldier vote, but no time is being lost in securing control of the "Ayuntamientos," or municipal governments, which control the count-

ing of the votes and the returns. Some of these methods are described as strenuous in the extreme. The mayor of Guanajay, Senor Juan Inda, was ousted from office by orders of the federal government, something that is impossible in the United States. This and other acts a few days ago seemed to promise an incipient revolution, but conservative counsel, halted the hot heads.

Warrior Candidates.
A prominent warrior is the opposition candidate for president. He is General Jose Miguel Gomez, and is supported by General Juan Gualberto Gomez and General Enrique Collazo, distinguished fighters. Much of the soldier vote is expected to follow them, thus dividing the ranks of the army element.

Pessimists, however, see little hope for anything but continued taxation, and predict that before the little republic is two years older that a bonded debt of \$100,000,000 will snugly fit down upon the shoulders of less than 200,000 tax payers.

It has been proposed that a list of prizes be given the players who put up the best game of ball during the coming tournament. These prizes will be many and varied, and will be for the players making the most hits, first home run, most hits during the series, most stolen bases, best batting average, etc. These prizes will result in the boys playing harder ball and will cause much good natured rivalry.

The Santa Fe New Mexican has the following to say about Chaplin Jeffries, who is to umpire the base ball games during the fair tournament:

Jim Jeffries, the champion pugilist of the world, who holds the belt over John L. Sullivan, James J. Corbett and Robert Fitzsimmons, ex-champion, will be at Albuquerque during the week of the territorial fair and umpire the base ball games between the El Paso, Texas; Clifton, Ariz.; Trinidad, Colo.; Deming, Las Vegas and Albuquerque teams. Needless to say, the games will be on the square, and no talking back to the umpire on his decisions. Champion Jeffries just recently refused an offer of \$1,000 to act as referee in the Britt-Nelson fight at San Francisco.

The Browns are putting in every available minute this week in good, hard practice and this practice should certainly guarantee good results. The boys of the Brown team, the fastest league players the visiting teams are to play during the tournament, as they are on to the game and will be ready to deliver the real article when the time comes.

The official score keeper has not yet been announced, but Superintendent Ed Pickard is expected to name him in a few days. There are several candidates for the place.

The ball grounds at Traction park will be given one or two more goings over before the tournament. It will be rolled and put in first-class shape. This will make the diamond very fast.

The fair series will show the real stuff that the Browns are made of. It will also give the fans a good idea of what Neher and Kunz, the two youngest members of the team who have been playing the most consistent game of the season, can do in fast company. There is no question but that each will give a satisfactory account of himself.

That Dan Gallegos, formerly of the Browns' pitching staff, has joined the Santa Fe Central, is evidenced from the following article in the Las Vegas Optic:

Santa Fe has already entered a team for the base ball tournament in connection with the northern New Mexico fair, and the following is a list of the players:
Gallegos, pitcher; Sisler, catcher; Newmeyer, pitcher; Gearhardt, first base; D. Anderson, second base; L. Anderson, third base; Alarid, short stop; Parsons, left field; G. Parsons, center field; X. Kawker, right field.
Frank Owen is manager of the team. It is certain that the Albuquerque Browns will enter the tournament. The three teams will insure the fastest kind of base ball.

"OLD PETE" BROWNING THIRD STRIKE OUT

When the Great Empire called the third strike on "Pete" Browning in the game of the other day, a diamond hero in the hills near the Mogollon camp, when a shot from an opposite hill was fired upon them by an unknown party. The shot grazed Mr. Browning's knee, causing a painful but not serious wound. It was, however, serious enough to cause him to use crutches. Though he is still quite lame from the injured knee, it is growing better and will likely be entirely well within a week. The party endeavored to learn by whom the shot was fired and the cause for the shooting, but was unable to learn any definite facts. It stated that there are a few Apaches in the hills of that section, and it is more than probable that some drunken one fired upon this party. Had the shot been aimed a little higher there is little doubt that Mr. Gibson would have been instantly killed.

Interesting to Students.
The schools and colleges will soon open for the fall term and there will be many self-confident young men and women who will be looking for a good way to earn their expenses. The Four-Track News, the great illustrated monthly magazine of travel and education, appeals to intelligent readers and students who will find it easy to secure subscriptions for it. The terms to persons soliciting subscriptions are extremely liberal and offer a very generous margin of profit. It will pay any one interested to write to the publisher, George H. COURT UP IN THE FIRST JUDICIAL DISTRICT

TORRES NOT GUILTY OF INCEST—A CONVICTION FOR PENSION FRAUDS.

In the United States court for the First judicial district, at Santa Fe, the case of the United States vs. Benedito Torres, upon an indictment charging the defendant with incest, was on trial Monday and Tuesday. United States District Attorney W. H. H. Lowell appeared for the United States and A. B. Benahan and B. M. Read appeared for the defense. The case was well tried. The prosecution impeached the testimony of each witness for the defense and the defense retaliated in kind. The jury, after four hours' deliberation, returned the verdict of not guilty.

The United States grand jury for that district, which has been in session for ten days, was discharged yesterday by Judge John R. McPhee, the jury having completed its labors. Eight indictments were returned during the session, and in two cases no "true bills" were found.

The United States petty jurors will be discharged upon the trial of the case of the United States vs. Fernando Maestas, for conspiracy to prevent W. A. Pless, an officer of the pension bureau, from doing his work. Maestas was indicted with Albert George Haskell, the pension attorney, who was tried and convicted upon indictments charging him with committing pension frauds and who was sentenced to the penitentiary.

District Court for Santa Fe County.
James Burke pleaded guilty yesterday forenoon, upon being arraigned in the district court for Santa Fe county of the larceny of the wedding suit of Louis Gold at Lamby. Judge McPhee sentenced him to one year in the penitentiary.

NEW FACTS ABOUT KOREA.

"Land of the Freshness of the Morning" is the poetical name of Korea among the people.
It is considered, in natural beauty, the Italy of the Orient.
Its landscapes are gems, winter or summer.

The country is healthy and delightful all the year round.
Game abounds; the soil is very fertile.

The people are miserably poor. The country is aristocratic ridden. Taxes are farmed out like in France before the revolution.

Justice is bought, and sold. Officials buy their places.
The peasant is held to the limit of endurance.

Merchants who appear prosperous are tortured until they make "loans" to the nobility.

Seoul, the capital, is mean and squalid beyond description.

The king's retinue is gorgeous in silk and colors.

Seoul has an electric railway.

The better class of women are never allowed to appear in public.

Seoul's mayor was chosen because of his skill in sorcery.

The town has up-to-date telephones. The king orders displays of devils and performances of magicians for royal funerals.

The palace is lighted with electricity.

The Korean men are tall and handsome. The women are squat, shapeless and ugly.

All the people are timid and peace-loving.

They are intelligent, but hopelessly listless.

Korea has no religion. Buddhism was established years ago.

PROBABLY WORK OF DRUNKEN INDIANS

TOM. L. GIBSON WAS WOUNDED, WHILE PROSPECTING IN THE MOGOLLONS.

Tom. L. Gibson came near losing his life in the Mogollon section last week, says the Silver City Independent. He and others were prospecting out in the hills near the Mogollon camp, when a shot from an opposite hill was fired upon them by an unknown party. The shot grazed Mr. Gibson's knee, causing a painful but not serious wound. It was, however, serious enough to cause him to use crutches. Though he is still quite lame from the injured knee, it is growing better and will likely be entirely well within a week. THAT BOY'S A BRICK

BY CYNTHIA GREY.

THE BOY STUCK.
That was just what he needed to make of himself a man. His Father knew it.

HE BLISTERED HIS HANDS. It hurt, too. It hurt a lot more than it would have had he blistered them rowing a boat.

He needed to blister his hands. He needed to suffer a little physical discomfort to make a man of him.

HE SWEAT GOOD AND PLENTY. It was a hotter and a more disagreeable sweat than the one boy has when playing base ball.

Do you remember the first time you sweat over something that you hated? Then you know just how wretched the Boy felt under that tormenting sweat.

But he needed that kind of a sweat. It is endurance, deprivation, self-sacrifice, which makes men of boys. Sometimes it comes in one way and sometimes in another.

Every time a boy takes hold of a can becomes a man. Every time he hates and STICKS, he is gaining something of manliness.

Utter, he is losing a bit of manhood. The Boy that STICKS to the wood until it is all corded is growing into a man.

because he sweats, makes no progression. The other one, the one that quits work was done, although he got tired and sticky and blistered.

It was the beginning of the Boy's manhood. After that day he was never again "I'M MIGHTY GLAD I STUCK!"

Those are the words that make a man of a fellow. That kind of talk makes Father as y to Mother, after the lights are out, "SUSAN, THAT BOY'S A BRICK."

OLDEST "SUMMER GIRL" 90 YEARS A SMOKER

Born in Kentucky.

Learned to smoke when she was 15. Has been smoking a pipe ever since. Was the mother of seven children, all but one dying in infancy.

Has been a widow 46 years. Rises at 8 a. m. Goes to bed at 8:30 p. m. Makes her own toilet.

Is always neatly attired. Takes a walk every morning. She is unable to read, but likes to have the Bible and the newspapers read to her.

Her eyesight is so good that she needs no glasses. Has been a Christian Scientist for the last 12 years.

Never takes medicine; in fact, never needs it. Weighs 90 pounds. Is slightly deaf.

Is a Mexican War widow, but has lost all papers upon which she could secure a pension.

Has been preparing her burial clothes since she was 100. An admirer sent her a cane. "Why, I don't need this," she said, "but I will save it and give it to some old person."

Best for Children. Mothers be careful of the health of your children. Look out for coughs, colds, croup and whooping cough. Stop them in time—One Minute Cough Cure is the best remedy. Harmless and pleasant. Contains no opiates. Sold by all druggists.

Don't wait for an explosion—cook with gas—the humane way.

St. Joseph, Mo., Sept. 14.—"Grandma" Sarah Shook, 90, of this city, is probably the oldest "summer girl" in the United States. She has been on a visit at Winthrop, and has dates ahead until cool weather. She plans to make Athens and Leavenworth, where she is well known. She loves to go out into the country and feed the chickens and potter around the garden. She is apparently almost as active as the most youthful "vacationer." Here are some things about "Grandma" Shook that may or may not upset some shock-ies upon old age:
